

Roadflow Hosted

An Intelligent Solution for Enforcement

Roadflow Hosted is a smarter enforcement solution, VCA certified for multiple Moving Traffic and Civil Enforcement purposes including Bus Lanes and Gates, Banned Turns, School Safe Havens, School Keep Clear, and Yellow Boxes. Our solution can capture video or image evidence and generate enforcement data to support the Council's Civil Enforcement Officers in assessing and confirming contraventions.

Other uses include Clean Air Zones, Liveable Neighbourhood Zones, and Road Toll Enforcement. Successfully helping Local Authorities to protect their communities, improve road safety, promote, prioritise and improve bus services, reduce traffic congestion and CO₂ emissions.

USE CASES

RoadflowHosted

FEATURES

- Fully managed SaaS solution
- UK hosted solution
- No 3rd party remote access
- Multifactor authentication
- Web based applications
- CREST approved penetration testing
- Disaster recovery capability
- Fully remote, scalable cloud environment

BENEFITS

- VCA Certified
- Maximised availability and up time
- IT infrastructure cost saving
- Scalable and flexible
- Remote cloud based web
- Cyber security threat resilience
- Low maintenance
