Roadflow Fusion Enhances Bus Lane Safety

Nottinghamshire County Council sought to address increasing traffic violations, particularly around Leeming Street in Mansfield, where bus lane contraventions and blocked bus stops were hindering the efficient operation of public transportation services.

BUS LANE IMPACTS

As a result, bus services had to be withdrawn after 6pm due to safety concerns and delays. SEA deployed Roadflow Fusion to enforce bus lane rules and reduce illegal parking.

CHALLENGES

- Persistent violations of bus lane restrictions, especially in Mansfield
- Parked vehicles obstructing bus stops, delaying services and commuters
- The bus route was discontinued after 6pm, impacting local commuters

RESULTS

Reduced Violations

60.6% drop in bus lane violations.

Reinstated Bus Service

The previously suspended bus route was reopened.

Improved Traffic Flow

Fewer blocked bus stops and smoother transit for buses.

Enhanced Safety

Safer, more efficient public transport routes for local commuters.

Positive Behaviour Change

Improved driver compliance with lane rules.

"Intelliscope's Roadflow Fusion systems have drastically reduced contraventions, enabling us to restore this crucial transport link for the community."

- Paula Argyle, Nottinghamshire County Council
